

Football fans if you are going to take a drink don't take the car!

Summer soccer means great football on Friday evenings and over the weekend. It can be a magic social occasion with friends and other fans, whether you are celebrating the result or drowning your sorrows!

Just remember, if you are going for a drink before, at or after the match, either use public transport or have a nominated driver and don't allow people to force drink on him/her.

Don't spoil the game or someone's life - Leave the car at home and by the way enjoy the game!
